Welcome to my banking program!

When you start up my program and run it in the console you will be greeted with an introduction to the program.

You will then have the choice of many options to do with the bank, but before you do that you have to make a new account, don't just make one though, have some fun and make a bunch!

Select an existing account
Delete an account
Deposit a sum of money
Withdraw a sum of money
Check your balance
Exit the program

Depending on what you choose you will be prompted to follow the instructions in the console.

Other than that it's free rain, to do whatever you want. Have fun!!!
